Store settings

Open the Settings menu, select Store, and do the following:

- select Store, and verify the values on the Account, Contact, and Tax tabs
- select Ecommerce Provider, and press "Test eCommerce Connection".
  If this does not display a green "Shopify Integration Test Successful" box, then contact ScryPOS support at support@scrypos.com
- select Tax, and ensure that the Registered for GST checkbox and ABN are correct if you are registered for GST
- select Receipt, and ensure the values are as you require on your tax invoices and receipts
